CUSTOMER RESEARCH

A customer research survey, co-sponsored by Contoso and Northwind and conducted at the beginning of 2012, asked consumers why they chose to buy Northwind-brand electronics over other name brands.

The phrases that emerged most often were "best value" (26 percent), "trusted" (23 percent), "good quality" (21 percent), and "innovative" (19 percent). All of these phrases map back to both companies' core values, proving that Northwind's and Contoso's shared approach to business is paying off.

A trusted brand

To investigate longer-term trends, we again turned to customer research to determine why consumers were turning to the Northwind brand in droves. Not surprisingly, the worldwide recession that began in 2008 has been a major factor. With less discretionary income, consumers are turning to trusted brands that are perceived to be good quality yet still a good value for the money.
